

Walkthrough Manager

Walkthrough Manager makes teaching appraisals easier

- Do online teaching appraisals from classrooms.
- Database tracks teaching improvement over time.
- Communicate your appraisal to teachers without delay.

Benefits of Walkthrough Manager

- **Web-based teaching appraisals on the go:** Use your **iPad** or **smartphone** to fill out smart forms directly in the classroom.
- **Instant notification:** The teacher will be sent an email immediately with the results of the appraisal.
- **Track appraisals:** Appraisals can be scheduled and tracked. See at a glance if you are keeping up with your teaching appraisal schedule.
- **Track improvement:** Appraisals are captured in a database so the results of different appraisals conducted over time can be easily compared.
- **Schoolwide queries:** The appraisal database can be queried across the entire teaching staff. Common problems stand out helping to guide in-service training decisions.
- **Staff notes:** The database also supports a convenient system of staff notes private to the principal which can be used for detecting trends or accumulating documentation.
- **Complete records:** Walkthrough Manager provides complete and easily accessible appraisal records over time for transparency and accountability.
- **Customizable:** The system is customizable to your school's appraisal process. Walkthrough Manager comes with a collection of smart appraisal forms ready to use. The forms compute appraisal scores as you touch or click your choices. And, you can customize the appraisal forms to match your teaching appraisal process or create completely new smart forms with an easy to use form editor.

28. Comments
The classroom shows evidence of careful preparation and the resulting benefit for students. Working relationships that have been developed with parents and other student support entities are used to provide a relevant and meaningful learning environment.

29. Strengths
Communication with and willingness to seek information from other educators can be seen through initiation of opportunities to meet and learn. Students' engagement is evident in their participation in the learning opportunities offered to them in this classroom.

30. Areas to address
Alignment of the curriculum across disciplines and grade levels needs continuing study. Skill development in working with students exhibiting inappropriate classroom behavior might be explored. Along with other areas, a broader range of intervention techniques could be included in this study.

This small snippet of an appraisal shows a smart form that calculates appraisal scores as you touch or click your ratings.

Walkthrough Manager comes with a smart appraisal form but you can easily modify it or create new ones to fit your appraisal process.
